

Tustin Pickleball

Player Rotation Rules

- Games will be played to 11 points, win by 2.
- Winners stay on and losers exit and place their paddles at the end of the queue. Next 2 players in the queue play the winners.
- Rotation continues with 2 players off, 2 players on. If only 1 player is waiting, that player will team with 1 of the losing players.
- Winners can stay on and win 2 games in a row. After the second win, all 4 players exit and place their paddles at the end of the queue. Losing players get priority in the queue ahead of the winners.
- Rotation changes to 3 or 4 on, 3 or 4 off, when 3 or more players are waiting on each of the courts of the same skill level (see illustration below). If only 3 players are waiting, 1 winner will stay on for the next game. Winning players get priority at the end of the queue ahead of the losing players.

* Court 10 is a “Challenge Court” for advanced/expert players in which the above rotation rules do not apply. Regardless of the number of players waiting, winners on court 10 can stay on and win up to 3 games in a row.
